

Dear Patient,

Change happens in the Fall...

We have had the pleasure of having Jeremy Dalley as one of our longest standing and well liked providers at Tripp Family Medicine. Jeremy has moved his family to Meridian and is accepting a position in a new specialty there to begin in the next couple of months. We will miss him and he will miss his patients.

This letter is to inform you of the departure of Jeremy Dalley, PA-C and the arrival of two new providers, Rebecca Fleming, PA and Josh Thornell, PA to Tripp Family Medicine who will be arriving in September. These well-trained Physician Assistants are both very sharp intellectually and down-to-earth personalities. We are sure you will appreciate the care you receive from them, similar to the care you received from Jeremy.

Jeremy and the new providers will be working closely together in conjunction with Dr. Tripp, DO and Blake Thompson, FNP, over the next couple months to ensure your transition of care and the care of your family is as seamless as possible.

Dr. Tripp will continue to supervise all patient activities at Tripp Family Medicine.

Thank you for trusting us to provide you quality healthcare in our personal way.

Sincerely,

Dr. Jonathan Tripp, DO  
Owner and Supervising Physician  
Tripp Family Medicine
